

Ahmed Ali Abdellatif

Full-stack developer — editorial-feeling websites and the systems underneath them

Cairo, Egypt · hello@theahmedali.com · +20 100 846 4127 · theahmedali.com · github.com/AhmedAli-00ne

EXPERIENCE

App Blender — Full-stack developer (member)

2024 — present

Client web, mobile and SaaS products for the MENA region. Built LConnect, a cross-platform social app (Ionic + Angular on Capacitor for iOS/Android, C#/.NET API with SignalR realtime and JWT auth) plus its moderation back-office; an Angular admin console for Zaseva (data tables, dashboards, rich-text, maps, role-based access over SignalR + JWT); and the internal studio console for TheSkyDesign (bookings, client portal, project timelines).

Independent — Design & build, editorial portfolio sites

2026

Animation-led sites designed, built, tested (Vitest + Playwright) and self-hosted (VPS, Caddy, systemd): mohamed-abdelwahab.com (photography archive), thewed-films.com (videography studio, Edge API contact relay, FFmpeg pipeline), zilleg.com (brand coming-soon), and theahmedali.com — an interactive WebGL "star atlas" portfolio built with three.js custom shaders.

SELECTED UNIVERSITY WORK

Gesture-Based Music Controller

Real-time computer-vision controller — webcam hand-gesture recognition mapped to audio parameters (Python, OpenCV, ML).

3D Graphics Final

C++ / OpenGL renderer — GLSL shaders, transforms, lighting, scene management.

SKILLS

TypeScript

React / Next.js

Angular / Ionic

three.js / GLSL

GSAP

Tailwind

C# / .NET

SignalR

Auth & JWT

Python / OpenCV

C++ / OpenGL

Linux VPS / Caddy / CI

Vitest / Playwright

EDUCATION

B.Sc. Computer Science

Class of 2026
